

What is a Google Business Listing and Why Is It Important?

The screenshot shows a Google Business Listing for Magic Mix Juicery. At the top, there are two photo thumbnails: one showing the interior counter area with the text "See photos" overlaid, and another showing the exterior storefront with the text "See outside" overlaid. Below the photos is the business name "Magic Mix Juicery" in a large, bold font. Underneath the name are three buttons: "Website", "Directions", and "Save". To the right of these buttons is a rating of 4.1 stars (represented by four full stars and one half star) and the text "77 Google reviews". Below the rating is the price range "\$\$" and the category "Organic restaurant". A prominent blue button labeled "ORDER ONLINE" is centered below this information. A descriptive blurb follows: "Simple menu of wraps, salads & desserts plus raw juices, smoothies & cleanses." Below the blurb is an advertisement for Seamless, which includes the text "Order delivery from Seamless.", "Get Magic Mix Juicery delivered to your door with Seamless. Order online now.", and a link "ORDER NOW · seamless.com". To the right of the Seamless ad is a red "seamless" logo. At the bottom of the listing, the address "102 Fulton St, New York, NY 10038" is displayed, followed by the hours "Hours: Open · Closes 9PM" with a dropdown arrow, the menu link "Menu: magicmix.us", the order links "Order: grubhub.com, postmates.com, doordash.com, zuppler.com, 9fold.me, seamless.com", and the phone number "Phone: (646) 454-0680".

It is the blurb about your business that appears on the first page of Google when people search for you or make related searches, for example: “juice bars near me”.

As a result, having the correct information on here will directly impact your sales.

PROTECTING YOUR BUSINESS LISTING

Because of the high visibility of these listings and high engagement rates, a lot of online ordering providers want to be featured on your listing to enhance sales. As a result they can “hijack” your listing by gaining access and inserting their URL first.

We want to help you maintain control of your listing, ensure your native URL (your actual website link) appears ahead of these other sites, and also help you make sure it stays that way.

If you have any other questions on updating your listing please contact us.
